National Service Scheme
2023-24**

National Service Scheme (NSS) has been playing a vital role in enriching the souls and minds of the students of the College since long time. The overall objective of this scheme is 'Education and Service' to the community and by the community. It is a programme for students to cater to the needs of the community, as and when required. It will also help the students to communicate with the society. The students joining this scheme develop many behavioural interactive skills. They visit the rural areas as NSS volunteers during the camps organized by the concerned colleges or departments of the university. The NSS volunteers take initiative in developing a Technocratic Environment and also help the underprivileged people to develop themselves. The scheme promotes the ability to present them in a better way. Thus the ultimate goal of the scheme is to strive to inculcate the bond of patriotism, national integration, brotherhood, communal harmony among these volunteers.

Report of Mental Health Awareness Workshop**

Date – 12/10/2023

The Pune District Education Association's Law College keeps itself ready for the holistic growth of its students in addition to their academic growth. To raise awareness of mental health issues among students, the Law College hosted Mental Health Awareness Day on October 11, 2023. The NSS Department of Law College has held Mental Health Awareness Day, honouring the global idea that mental health is everyone's right. For this reason, a workshop on mental health awareness was planned. This was a one-day workshop. The main guest for this event was Assistant Professor Sangeeta Deokar, Head of the Psychology Department at Annasaheb Magar College in Hadapsar. She motivated the students in this workshop by discussing a range of mental health-related topics.

What is called mental health? What is being mentally ill? History of Mental Health Day Reasons behind celebrating Mental Health Day: We need to prioritize mental health. The interrelationship between mental health and physical health.

This course covered the sorts of mental diseases, their causes, and the growing number of mentally ill individuals in India and around the world. In addition, a number of exercises were performed, including deep breathing, positive visualization, rating systems, score interpretation, acupressure for stress relief, and Jacobson muscle relaxation. It appears that the workshop was successful in elucidating the idea of mental health and reminding participants of the prerequisites for preserving mental health.
